

Pegasus IV

The Pegasus IV is an insurance-approved security safe, certified to EN 1143-1 Grade 4, built for businesses, jewellers and institutions holding high values on site. The range runs from 93 to 477 litres across five sizes, each available with single or twin locking. Every Pegasus IV is independently tested for burglary resistance to EN 1143-1 and certified by VdS and ECB•S in Germany. Grade 4 sits well above the Grade 1 and Grade 2 safes specified for general commercial use, for premises where the value held justifies it.
